Light snow	Sleet	Sleet showers	Sleet showers	Sleet showers	Partly cloudy (night)
Precipitation probability					
20%	20%	60%	60%	40%	10%

Forecast for Friday 14 Apr 2023

Weather: Clear in the north through the early hours. Low cloud increases across southern fells shortly before dawn, bringing a few showers, falling as snow above 700m. Then a mostly dry start with bright spells, a few isolated showers. Showers frequent by late morning and through the afternoon with hail, snow above 800m, and a risk of lightning. Turning dry with clear spells in the evening.

Chance of cloud-free hill tops above 800m: 60% in the morning, best chance in the north. 80-90% in the afternoon.

Low cloud and visibility: Generally very good visibility outside of low cloud, falling to a few kilometres in heavy showers. Cloud bases 300-400m at dawn, lifting to 600m by late morning across southern Fells, largely cloud free in the north. In the afternoon, patchy cloud mostly above the tops, but occasionally dropping to 900m in heavy showers.
